Summary

MERN Stack Developer with strong expertise in MongoDB, Express.js, React.js, and Node.js. Experienced in building scalable full-stack applications, REST APIs, authentication systems, real-time features, and secure payment integrations. Passionate about clean code, modern UI/UX, and solving real-world problems through technology.

Technical Skills

Languages: JavaScript, Python,C++, HTML5/CSS3
Frontend: React.js, Redux Toolkit, Tailwind CSS, GSAP
Backend: Node.js, Express.js, RESTful APIs,Langchain
Databases: MongoDB, MySQL
Tools: Git, Postman, Vercel, Render,Netify

Experience & Training

Antier School of Blocktech (ASB) July 2025 – Jan 2026
Full-Stack Web Development *Mohali, India*

- Developed scalable full-stack modules using the MERN stack with a focus on state management.
- Collaborated on building secure authentication flows and designing optimized database schemas.

Clepr Technologies Dec 2025 – Feb 2026
Full-Stack Developer Intern *Mohali, India*

- Managed and contributed to the development of a full-stack MERN application, coordinating project tasks and ensuring timely feature delivery.
- Designed and implemented scalable backend APIs using Node.js and Express.js while integrating MongoDB for efficient data management.

Projects

StarSync | *Astrology SaaS Platform* | astro-lilac-chi.vercel.app

- Developed a full-stack web application using the MERN stack to facilitate spiritual wellness consultations.
- Integrated LiveKit to enable real-time video streaming and interactive sessions between users and consultants.
- Built a secure Digital Wallet using Stripe API for credit management and automated transaction handling.

AI-Powered Resume Builder | ai-resume-builder-beta-pink.vercel.app

- Designed a dynamic document editor with real-time preview and multiple layout template options.
- Integrated ImageKit for efficient cloud storage of profile images and optimized asset delivery.
- Implemented client-side PDF generation logic allowing users to download formatted documents instantly.
- Used Tailwind CSS to build a fully responsive interface, achieving 100% compatibility across mobile and desktop devices.

Scatch | *E-Commerce Application* | scatch-bice.vercel.app

- Developed a complete e-commerce flow including product catalogs, cart functionality, and secure checkout.
- Implemented user authentication using Google OAuth and JWT to ensure secure access to user profiles.
- Integrated Stripe Webhooks to automate order status updates and real-time inventory synchronization.
- Created an Admin Dashboard for managing product listings, tracking sales, and overseeing user orders.

Education

Global Group of Institutes May 2022 – June 2025
Bachelor of Computer Applications (CGPA: 7.5) *Amritsar, Punjab, India*
S.B.L.S Khalsa Sec. Sen. School 2021 – 2022
12th – Science (89%) *Amritsar, Punjab, India*

Certifications

- Node.js – The Complete Guide (MVC, REST APIs, GraphQL) — *Udemy*
- Microsoft Azure Fundamentals (AZ-900) — *Udemy*
